109 ENGINEER DRIVE
CAMP MURRAY, TACOMA, WASHINGTON, 98430-5035

23 January 2007

MEMORANDUM FOR ALL 194th Regional Support Wing Units

FROM: 194th RSW/CC

SUBJECT: 194th RSW Environmental Policy Statement

Provided below is the Environmental Policy Statement for 194th Regional Support Wing (194th RSW) units in western Washington. This policy supersedes my policy dated 30 September 2005. Please ensure that the policy is communicated to all, full-time and traditional and state, personnel at your units.

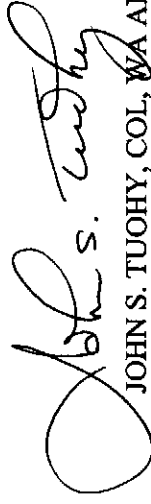

ENVIRONMENTAL POLICY STATEMENT

The 194th RSW, whose mission is to

“Ensure highest level of readiness and rapid response for state and federal emergencies, while providing effective leadership, strong advocacy, and ‘value added’ services; and to prepare and shape our future by modeling and instilling the USAF Core Values”,

is committed to continued excellence, leadership, and stewardship in protecting the environment. In keeping with this policy, our vision is to continually improve our environmental performance by minimizing our impact upon the manmade and natural environment; to comply with federal, state and local environmental regulations, and other applicable requirements and to reduce waste through pollution prevention. Our basic beliefs and practices include:

- Environmental protection is a responsibility of every 194th RSW member.
- Environmental stewardship is included in all operational planning and execution.
- Reducing or eliminating the generation of waste will be part of all future decision-making.

JOHN S. TUOHY, COL, USAF
Commander
